	D. H. G. FF. A. C. E. G. E. F.

Beginning to Know About Ourselves and Others YOUNG INFANTS (BIRTH TO 8 MO.), Relationships with Adults, CONT		
<b>Establish and maintain rhythmic interactions with caregiver.</b> Enjoy playing simple games like peek-a-boo. Begin to make sounds in response to caregiver making sounds.	E. M.	Building relationships with adults Listening and comprehension
Relationships with Peers: The infant/toddler uses beginning social skills with other children		
<b>Show awareness of other children.</b> Demonstrate attention by watching. Begin to cry when another child cries.	F.	Building relationships with other children
<b>Begin to interact with peers.</b> Observe and imitate gestures, sound and actions of other children. Reach out to them.	F.	Building relationships with other children
<b>Show enjoyment in interaction with other children.</b> Touch mouth or hair of another child. Smile spontaneously at other children.	F.	Building relationships with other children
MOBILE INFANTS (6-18 MO.)		
Self regulation: The infant/toddler begins to regulate feelings and behaviors		
<b>Express a variety of emotions.</b> Show interest and excitement about animals and other living things. Hug, crawl or toddle toward familiar person. Begin to show sense of humor. Frown in response to discomfort.	D.	Emotions
Regulate emotions and behaviors with adult support. Demonstrate recognition of new setting by changing behavior. Explore new settings with help from caregiver. Communicate need for support from adults.	D. H.	Emotions Conflict resolution
Express own needs. Gesture when hungry. Cry "da da" when hurt.	K. L.	Personal care and healthy behavior Speaking
Follow simple routines and rules in group setting with adult support. Anticipate and participate in routine activities. Follow some consistently set rules. Depend upon frequent reminders to learn boundaries. Respond appropriately to reminders, "wait', "get down, "be gentle."	G.	Community
Self awareness: The infant/toddler demonstrates an awareness of personal characteristics and abilities		
<b>Show awareness of self as individual.</b> Recognize self in mirror and photos. Make a choice about what to play with. Play with one toy more than others. Protest when doesn't want to do something.	FF.	Knowledge of self and others

Beginning to Know About Ourselves and Others MOBILE INFANTS (6 TO 18 MO.), Self-Awareness, CONT		
Show awareness of own abilities. Attempt to stab food with fork. Takes object from caregiver to put in bucket.	A. I. J.	Initiative and planning Gross-motor skills Fine-motor skills
<b>Show beginning understanding of accomplishment.</b> Display frustration. Laugh at own abilities. Look to caregiver when accomplishing something new.	C.	Reflection
<b>Begin to use abilities in interactions.</b> Respond to request for actions. Imitate adult actions such as talking on the phone. Show enjoyment at being in familiar setting or group. Give objects to others.	E. F. M.	Building relationships with adults Building relationships with other children Listening and comprehension
Relationships with Adults: The infant/toddler develops secure and trusting relationships with adults		
<b>Begin to solidify relationships with adults.</b> Show feelings of security with familiar adults. Look to adult before beginning to explore.	E.	Building relationships with adults
React differently toward familiar and unfamiliar adults. Show wariness or cling when someone new appears. Show discomfort when caregiver is not in sight.	E.	Building relationships with adults
<b>Demonstrate increasing responsiveness in interactions with others.</b> Respond positively to encouragement. Look to adult for indication of appropriate behavior. Share hugs with familiar adults Cooperate during routine care.	E.	Building relationships with adults
Begin to take turns with caregiver during play. Take turns imitating each other's actions. Respond to caregiver saying, "Your turn, my turn."	E. M.	Building relationships with adults Listening and comprehension
Relationships with Peers: The infant/toddler uses beginning social skills with other children		
Begin to relate to other children. Match another child's emotions. Touch another child's hair.	F.	Building relationships with other children
Demonstrate interest and enjoyment in interactions. Participate in spontaneous interactions with peers and show enjoyment. Show preference among play partners.	F.	Building relationships with other children
<b>Exhibit pro-social behaviors.</b> Comfort a crying peer by bringing a blanket. Show empathy for the natural world, such as a hurt animal.	D.	Emotions
<b>Demonstrate beginning interaction skills with peers.</b> Initiate interactions with other children through gestures, vocalization or body contact. Accept adult intervention to negotiate disputes about toys. Imitate or respond to actions of peers.	F. H.	Building relationships with other children Conflict resolution

Beginning to Know About Ourselves and Others OUNG TODDLERS (16-24 MO.)		
Self regulation: The infant/toddler begins to regulate feelings and behaviors		
<b>Begin to recognize feelings in self and others.</b> Attempt to comfort someone who is scared. Notice if other children are happy or sad. Point to picture of happy baby in book. Name some emotions.	D.	Emotions
<b>Demonstrate different emotions or moods.</b> Express frustration when they don't get what they want. Choose to spend time alone. Push away another child who is getting adult attention.	D. H.	Emotions Conflict resolution
<b>Show more, but still limited, self regulation.</b> Attempt self help skills independently, then cry when unable to succeed. Insist on a specific adult to meet their needs. Seek caregiver support when feelings strong emotions.	H.	Conflict resolution
Show comfort in daily routines and activities. Get book before bedtime. Climb onto chair when it is time to eat. Get favorite blanket at nap time. Exhibit distress if routine is disrupted.	G.	Community
Self awareness: The infant/toddler demonstrates an awareness of personal characteristics and abilities		
<b>Begin to demonstrate behaviors that reflect self concept.</b> Point to eyes, mouth, etc. when prompted. Show preference for specific adults, peers, objects or activities. Call self by name.	FF.	Knowledge of self and others
<b>Show increased awareness of own abilities.</b> Help to put away toys when asked. Let you know they need to be changed. Enjoy self feeding. Smile when a task is accomplished.	A. B. C. G. K.	Initiative and planning Problem solving with materials Reflection Community Personal care and healthy behavior
<b>Display assertiveness.</b> Tell mom, "Don't sing!" Give orders to others: "Sit!" Resist control by adults. May resist change.	E. F. H.	Building relationships with adults Building relationships with other children Conflict resolution
Relationships with Adults: The infant/toddler develops secure and trusting relationships with adults		
Continue to need the emotional security of a trusted adult. Play in the sandbox with other children, but return to the caregiver periodically. Look up from play activity to make eye contact with adult.	E.	Building relationships with adults

Beginning to Know About Ourselves and Others YOUNG TODDLERS (16-24 MO.), Relationships with Adults, CONT		
Continue to show caution around unfamiliar adults. Hold adult's hand when introduced to a new adult. Observe from a distance before approaching a new adult.	E.	Building relationships with adults
<b>Demonstrate increased reciprocity in relationships with adults.</b> Enjoy imitating adults' behaviors. Follow caregiver around the house. Display pleasure when interacting with adults.	E.	Building relationships with adults
Relationships with Peers: The infant/toddler uses beginning social skills with other children		
<b>Demonstrate increased interest and frustration with other children.</b> Play side by side, but not with, other children. Join several children for a story. Refuse to share a toy with another child.	F. H.	Building relationships with other children Conflict resolution
Act upon their increased awareness of other children's feelings. Take a doll away, but return it when the other child cries. Express remorse when accidentally hurting another child.	D. H.	Emotions Conflict resolution
<b>Demonstrate increasing interaction skills with peers.</b> Participate in simple back and forth play. Respond differently to younger children. Imitate reactions or behaviors of peers.	F.	Building relationships with other children
Beginning to Know About Ourselves and Others OLDER TODDLERS (24-36 MO.)		
Self regulation: The infant/toddler begins to regulate feelings and behaviors		
Demonstrate an increasing ability to recognize feelings of self and others. Act out feelings during pretend play. Express how another child might feel. Recognize that inappropriate behavior will result in negative reaction from adults. Use words to express emotions.	D.	Emotions
<b>Begin to use strategies to regulate own emotions.</b> Use self talk: Say "no" when reaching for forbidden object. Reenact emotional events to gain mastery: pretend to nurse a baby. Ask for help: "Can you rub my back?"	D. H.	Emotions Conflict resolution
<b>Begin to manage changes in emotional state.</b> Shift from "me do" to allowing caregiver to tie shoe. Do not like change, but usually can adjust. Demonstrate autonomy by saying no, but may cooperate.	G. H.	Community Conflict resolution
<b>Is increasingly able to regulate behavior.</b> Anticipate and follow simple rules with reminders. Recognize that inappropriate behavior will result in negative reactions from adults. Begin to share, often with assistance. Test limits.	G. H.	Community Conflict resolution

Beginning to Know About Ourselves and Others OLDER TODDLERS (24-36 MO.) CONT		
Self awareness: The infant/toddler demonstrates an awareness of personal characteristics and abilities		
<b>Demonstrate behaviors that reflect self concept.</b> Name some body parts. Use pronouns to refer to self. Identify objects as belonging to him or her.		Personal care and healthy behavior Knowledge of self and others
<b>Demonstrate self-confidence; learn to do things by themselves.</b> Insist on trying tasks without help. Show completed projects to caregivers. Try new tasks. May seek help after trying something challenging. Help with simple chores.	B. C. G.	Initiative and planning Problem solving with materials Reflection Community Personal care and healthy behavior
<b>Show awareness of self as part of a group.</b> Repeat a behavior when someone is watching. Ask simple questions about other children. Name family members. Recognize self and others in photos.		Community Knowledge of self and others
Relationships with Adults: The infant/toddler develops secure and trusting relationships with adults		
<b>Trust and interact comfortably with familiar adults.</b> Seek adult assistance with challenges when needed. Respond positively to guidance most of the time. Start activity after a caregiver's suggestion.	E.	Building relationships with adults
Establish relationships with consistent adults other than primary caregiver. Attempt to please adults; look to them for approval. Work with adult to solve problems or communicate ideas. Begin to accept different limits in different situations (e.g. home and Grandma's house).	E.	Building relationships with adults
<b>Begin to imitate or portray roles and relationships.</b> Are eager to help with chores. Pretend or act out roles and events.		Building relationships with adults Pretend play
Relationships with Peers: The infant/toddler uses beginning social skills with other children		
Demonstrate ability to interact with an increasing number of children. Show enthusiasm for company of others. Engage in complementary interaction — feed the doll another child is holding. Name friends.	F.	Building relationships with other children
Use beginning negotiation skills with other children. Begin to share and take turn with assistance. Use adults to help take turns. Give up and keeps objects during play with assistance.	H.	Conflict resolution
Begin to use words in social situations with peers. Assert ownership: "mine." Communicate with other children to settle disputes with assistance.		Building relationships with other children Speaking

#### **COR Advantage Items**

, ,	
Beginning to Know About Ourselves and Others OLDER TODDLERS (24-36 MO.), Relationships with Peers, CONT	
Participate positively in activities with more than one other child. Participate in loosely structured games, dramatic play, chase. Sit with several other children for a short story or song,	F. Building relationships with other children G. Community
Beginning to Communicate YOUNG INFANTS (BIRTH TO 8 MO.)	
Listening and Understanding: The infant/toddler responds to the message of another's communication	
Show sensitivity to noise and sudden sounds. Startle to loud or sudden noises. Turn to locate the source of a sound.	<ul><li>M. Listening and comprehension</li><li>N. Phonological awareness</li><li>Y. Music</li></ul>
Respond to sounds in the environment or verbal communication. Smile at person who talks/gestures to her. Watch caregiver's face as he speaks. Become calm when sung to.	<ul><li>L. Speaking</li><li>M. Listening and comprehension</li><li>Y. Music</li></ul>
<b>Begin imitating adult facial expressions.</b> Smile when an adult smiles at him. Stick out their tongue in response to seeing an adult's tongue out.	Building relationships with adults     Listening and comprehension
Begin to listen to words with understanding. Look at mother when asked "Where's mommy?" Respond to name when called.	M. Listening and comprehension
Speaking and Communicating: The infant/toddler conveys a message to another person	
Use sounds, gestures or actions to express needs and feelings. Vary cries to communicate needs. Reach for a wanted toy. Turn away to express need for a break. Squeal and laugh to express pleasure.	D. Emotions L. Speaking
Coo, babble. Engages in crib talk.	L. Speaking
<b>Use sounds in social situations.</b> Vocalize in response to another's voice. Make sounds to attract attention.	Building relationships with adults     Building relationships with other children     Speaking
<b>Begin to initiate interactions.</b> Smile at familiar objects and people. Raise arms to familiar adults.	Building relationships with adults     Building relationships with other children     Speaking
Request continued action of a toy or activity through body movements, eye contact or vocalizations. Wiggle body to get caregiver to repeat rocking game. Look at mobile and vocalizes when it stops playing music.	B. Problem solving with materials     C. Reflection
Vocalize to get attention.	L. Speaking
Note: Defers to made of communication most familiar or appropriate for the shill. Drimery	

#### **COR Advantage Items**

Beginning to Communicate YOUNG INFANTS (BIRTH TO 8 MO.) CONT		
Early Literacy: the infant/toddler begins to develop the foundations for early literacy		
Show interest in books, pictures, songs and rhymes. Look at pictures in books. Coo when hears singing. Follow caregiver gaze to look at picture.	P. Q. Y. Z.	Reading Book enjoyment and knowledge Music Movement
Explore books as objects. Mouth vinyl book. Pat pages when held in lap with book.	Q.	Book enjoyment and knowledge
<b>Respond to rhythmic language in rhymes and songs.</b> Calms or brightens to familiar songs. Make sounds when looking at picture books.	N. Y.	Phonological awareness Music
<b>Begin to develop eye-hand coordination.</b> Wave arms when seeing a toy that excites. Bat at, reach for, grasp or mouth objects placed in reach.	J. Z.	Fine-motor skills Movement
Manipulate materials with increasing precision. Grasp rattle and lets go. Transfer and manipulates objects. Pick up small toy with thumb and fingers.	J.	Fine-motor skills
Beginning to Communicate MOBILE INFANTS (6-18 MO.)		
Listening and Understanding: The infant/toddler responds to the message of another's communication		
Pay attention to what speaker is looking at or pointing to.	M.	Listening and comprehension
Respond non-verbally to gestures and/or words. Point when asked "Where is the puppy?" Shake head to indicate preferences. Respond with hand gestures when adult says, "bye-bye."	M.	Listening and comprehension
Follow one-step requests when caregiver uses gestures and words. Hold out arms when caregiver says "Up?" Crawl toward a ball when asked, "Where is the ball?'	M.	Listening and comprehension
Recognize familiar routines or games. Put hands together when "Pat-a Cake" is demonstrated.	M. Y.	Listening and comprehension Music

#### **COR Advantage Items**

Beginning to Communicate		
MOBILE INFANTS (6-18 MO.) CONT		
Speaking and Communicating: The infant/toddler conveys a message to another person		
<b>Imitate sounds, gestures or words.</b> Make raspberries or bubbles to experiment with sounds. Babble with inflection. Make animal sounds when prompted.		Speaking Phonological awareness
Begin to use consistent sounds combinations, words and gestures to communicate. Say "mama," " papa" or "uh-oh." Shake my head to say "no." Point to an object she wants you to get. Sign "more" when asked if they want more juice.	L.	Speaking
Begins to participate in socially expected conversations. Engage in vocal turn taking. Wave bye-bye. Play "peek a boo."	F. L.	Building relationships with adults Building relationships with other children Speaking Listening and comprehension
<b>Ask simple questions.</b> Point to cookie jar to ask "Can I have one?" Say "Daddy gone?" when she can't find her father.	L.	Speaking
Early Literacy: the infant/toddler begins to develop the foundations for early literacy		
<b>Begin to participate in stories, songs and fingerplays.</b> Point at or name pictures or photos. Make movements in response to cues. Bring book to adult to read. Make animal sounds when shown picture.	P. Q.	Phonological awareness Reading Book enjoyment and knowledge Music
<b>Explore books with interest.</b> Look at pictures. Manipulate books by looking, patting, pointing, turning pages. Turn pages of a board book.		Reading Book enjoyment and knowledge
<b>Listen to stories for a short period of time.</b> Watch while teacher does finger plays. Sit in lap to listen to short story.		Listening and comprehension Reading
Experiment with grasp using a variety of writing tools. Hold a crayon in his fist to make random marks on paper. Use palmar (fist) grasp to pick up objects.	R.	Writing
Scribble spontaneously using large circular motions.	R.	Writing

#### **COR Advantage Items**

Beginning to Communicate YOUNG TODDLERS (16-24 MO.)		
Listening and Understanding: The infant/toddler responds to the message of another's communication		
Respond appropriately to simple commands. "Give me the" "Sit, please." "Bring me a diaper, please."	M.	Listening and comprehension
Understand that words stand for objects. Point to pictures of actions when named. Respond to simple questions non verbally. Recognize and pick out common objects.	M.	Listening and comprehension
<b>Demonstrate understanding of simple questions.</b> Respond appropriately most of the time when asked "What?" or "Where?"	M.	Listening and comprehension
Speaking and Communicating: The infant/toddler conveys a message to another person		
Use words and gestures to communicate ideas. Point and say, "Cookie" when they want one. Produce sounds of animals and familiar objects. Use names for familiar people.	L.	Speaking
Combine words. Describe what they are doing; " jump." Make short sentences of two or three words: "Me go outside."	L.	Speaking
<b>Use sounds and words in social situations.</b> Nod and shake head. Pretend to talk on the toy phone. Answer questions with yes or no.	L. M.	Speaking Listening and comprehension
Has larger vocabulary in home language; is beginning to acquire vocabulary in second language.	II.	Listening to and understanding English
Early Literacy: the infant/toddler begins to develop the foundations for early literacy		
Participate in stories, songs and fingerplays. Request favorite book. Move rhythmically or attempt to sing along with familiar songs. Verbally label pictures in a familiar book.	N. P. Q. Y.	Phonological awareness Reading Book enjoyment and knowledge Music
<b>Begin to develop imitative reading.</b> Turn pages and "tell story." Show preference for a favorite book or page. Fill in words in familiar text.	P. Q.	Reading Book enjoyment and knowledge

#### **COR Advantage Items**

Beginning to Communicate YOUNG TODDLERS (16-24 MO.), Early Literacy, CONT	d l	
<b>Responds to early literacy activities.</b> Listen attentively to familiar stories, rhymes and songs for a short period. Request favorites.	M. N. Q. Y.	Listening and comprehension Phonological awareness Book enjoyment and knowledge Music
<b>Explore writing as a means of communication.</b> Intentionally make marks on paper. Explore various writing materials. Imitate vertical lines made by an adult.	R.	Writing
Beginning to Communicate OLDER TODDLERS (24-36 MO.)		
Listening and Understanding: The infant/toddler responds to the message of another's communication		
Follow more complex directions and requests. "Take your cup and throw it in the trash."  Begin to put toys in a basket when the "Tidy up" song is played.	M.	Listening and comprehension
<b>Demonstrate active listening strategies.</b> Listen for short periods. Begin to ask questions about what was heard.	M.	Listening and comprehension
<b>Demonstrate increased understanding of questions.</b> Respond with appropriate action or word when asked "Who?" or "Where?" questions. Respond to questions about objects or events outside of the immediate context.	M.	Listening and comprehension
Show increased receptive vocabulary. Point to body parts when asked. Respond appropriately to most prepositions; "put it in the box." Begin to understand a few pronouns ("me", "mine", "you").	M.	Listening and comprehension
Speaking and Communicating: The infant/toddler conveys a message to another person		
Combine words to express more complex ideas. Talk about past and future events. Ask what, why and where questions to get information.	L.	Speaking
Begin to follow grammatical rules, although not always correctly. Add "s" to words when talking about more than one. Use negatives. Use adjectives in phrases-big truck. Begin to use pronouns: mine, yours. Use past tense.	L.	Speaking
Note: Defend to me de et encourse l'estlem me et famillem en encourse dete famille et l'All Delevens		F

#### **COR Advantage Items**

Beginning to Communicate OLDER TODDLERS (24-36 MO.), Speaking and Communicating, CONT		
<b>Initiate socially expected communication.</b> Say "stop" when pushed by another child. Make related comment during group conversation. Answer questions about a story you read. Take turns in simple conversations.	Speaking Listening and compreh	nension
Speak clearly enough to be understood, most of the time.	Speaking	
Ask simple questions in home language; may use gestures or single words to ask question in second language.	J. Speaking English	
Early Literacy: the infant/toddler begins to develop the foundations for early literacy		
Initiate and participate in stories, songs and fingerplays. Recite phrases from familiar songs or fingerplays. Fill in words to repetitive stories or rhymes.	<ul><li>Phonological awarenes</li><li>Reading</li><li>Book enjoyment and k</li><li>Music</li></ul>	
<b>Begin to follow what happens in a story.</b> Tell what happened next. Laugh at a funny story. Notice changes in a familiar story.	<ul><li>Listening and compreh</li><li>Reading</li><li>Book enjoyment and k</li></ul>	
Show awareness of pictures and symbols in print. Name cereal brand or restaurant logo. Name street signs in environment or pictures.	. Reading	
<b>Demonstrate understanding that written symbols have meaning.</b> Request adults to write for them. Tell adult about drawing and ask adult to write story.	. Reading	
Start to use own drawings to represent objects and ideas. Pretend to take orders when playing restaurant. Make a scribble picture and says "It's a dinosaur."	. Writing . Art	
Express creativity using skills for writing. Create squiggles and lines with shaving cream. Use shapes and lines to represent words.	. Writing . Art	

Beginning to Build Concepts YOUNG INFANTS (BIRTH TO 8 MO.)	
Exploration and Discovery: The infant/toddler inquires about the world and experiences the properties of things	
<b>Observe to learn about the environment.</b> Respond to light and patterns. Focus on faces and objects in close range. Visually follow movements of objects and people.	T. Geometry: Shapes and spatial awareness BB. Observing and classifying DD. Natural and physical world
<b>Explore attributes of materials.</b> Make sound with rattles, bells, etc. Pat textures on play mat. Play with fingers and toes. Reach and grasp objects.	S. Number and counting T. Geometry: Shapes and spatial awareness U. Measurement V. Patterns BB. Observing and classifying CC. Experimenting, predicting, and drawing conclusions DD. Natural and physical world
Concept Development and Memory: The infant/toddler understands cause and effect, the permanency of things and beginning numeracy concepts	
<b>Differentiate between familiar and unfamiliar people and objects.</b> Smile at familiar sounds. Display anxiety when a stranger is seen.	<ul><li>E. Building relationships with adults</li><li>F. Building relationships with other children</li><li>BB. Observing and classifying</li></ul>
Imitates facial expressions immediately or later. Smile when caregiver returns. Stick out tongue when adult sticks out hers.	D. Emotions M. Listening and comprehension
Begin to know that objects still exist when out of sight. Look for dropped object. Reach for partially hidden toy.	GG. Geography
Repeat actions to get the same reaction. Continue to bat at crib toy to make a sound. Smile at caregiver to get a smile back. Drop object for caregiver to pick up repeatedly.	B. Problem solving with materials CC. Experimenting, predicting, and drawing conclusions
Problem Solving and Use of Symbols: The infant/toddler finds solutions and represent thoughts and feelings in creative ways	
Experiment with self-soothing. Suck his fist. Watch her fingers.	D. Emotions K. Personal care and healthy behavior
<b>Use simple actions to make things happen.</b> Cry to get caregiver attention. Shake rattle to make noise.	B. Problem solving with materials CC. Experimenting, predicting, and drawing conclusions

Beginning to Build Concepts YOUNG INFANTS (BIRTH TO 8 MO.), Problem Solving and Use of Symbols, CONT		
Respond to music or chanting. Quiet when hears familiar tune. May calm to familiar chant.	Y. Z.	Music Movement
Beginning to Build Concepts MOBILE INFANTS (6-18 MO.)		
Exploration and Discovery: The infant/toddler inquires about the world and experiences the properties of things		
<b>Explore size and shape.</b> Play with toys and objects of different sizes and shapes. Put toys into containers of different sizes.		Geometry: Shapes and spatial awareness Measurement Observing and classifying Natural and physical world
<b>Actively explore the environment.</b> Explore space by moving self, over, under and through objects. Experiment with gravity by dropping items off high chair. Participate in many sensory experiences using more than one sense.	CC.	Gross-motor skills Observing and classifying Experimenting, predicting, and drawing conclusions Natural and physical world
Investigate new things in the environment. Reach out to touch grass or flowers. Focus on stranger's face Interact with a new toy.	CC.	Observing and classifying Experimenting, predicting, and drawing conclusions Natural and physical world
Concept Development and Memory: The infant/toddler understands cause and effect, the permanency of things and beginning numeracy concepts		
<b>Develop an awareness of quantity and size.</b> Understand "more" in reference to food or play. Order a few objects by size, with assistance.	S. U.	Number and counting Measurement
<b>Imitate other's actions, gestures and sounds.</b> Push button on music toy after caregiver demonstrates. Clap and laugh when caregiver does.		Pretend play Experimenting, predicting, and drawing conclusions
<b>Demonstrates object permanence.</b> Uncover a hidden toy. Ask for something that is out of view. Find something from the day before.	GG	. Geography
Observe and respond to different causes and effects. Play with a 'busy box" or other cause and effect toy. Use a variety of actions to explore a ball.	CC.	Experimenting, predicting, and drawing conclusions

Beginning to Build Concepts MOBILE INFANTS (6-18 MO.) CONT		
Problem Solving and Use of Symbols: The infant/toddler finds solutions and represents thoughts and feelings in creative ways		
<b>Begin to solve simple problems.</b> Crawl around toys rather than over them. Pull string to bring toy closer.	B.	Problem solving with materials
Use simple tools. Climb on stool to reach toy. Use a bucket to carry things.	EE.	Tools and technology
Use a person or object to solve a problem. Use a stick to get a ball that is stuck under the couch. Get caregiver to help wind up car.	B.	Problem solving with materials
Play with dramatic play materials. "Talk" on the toy phone. Feed the baby.	AA.	Pretend play
Begin to use art media. Use brush with water and makes strokes.	X.	Art
Express self by moving to music. Bounce to familiar music.	Z.	Movement
Beginning to Build Concepts YOUNG TODDLERS (16-24 MO.)		
Exploration and Discovery: The infant/toddler inquires about the world and experiences the properties of things		
<b>Notice how items are the same or different.</b> Point to matching or similar objects. Begin to identify common shapes. Sort and match with guidance. Use play to try out how things go together.	U. BB.	Measurement Observing and classifying
Use sounds and simple words to describe things /ask questions about the environment. Imitate or match animal sounds. Use "daddy" for all men. Use one word questions: "Doggie?"		Speaking . Natural and physical world
<b>Explore concepts of space.</b> Play with toys that can be taken apart and put together. Turn a puzzle piece to make it fit. Attempt to climb into the doll cradle. Crawl through a tunnel or into closed spaces.	B. T. CC.	Problem solving with materials Geometry: Shapes and spatial awareness Experimenting, predicting, and drawing conclusions
Concept Development and Memory: The infant/toddler understands cause and effect, the permanency of things and beginning numeracy concepts		
<b>Develop an increasing awareness of quantity and size.</b> Understand amount words such as more, less and another, all gone. May notice if one group of crackers has more than another or choose the bigger piece of something. Attempt to put large objects into small boxes.	U.	Measurement

Beginning to Build Concepts YOUNG TODDLERS (16-24 MO.), Concept Development and Memory, CONT	
<b>Demonstrate a more complex level of object permanence.</b> Know where items belong. Find items without needing to see them hidden. Initiate a hiding game.	GG. Geography
<b>Experiment with more complex cause and effect play.</b> Observe what happens when a tall tower is built. Poke, squeeze, push and pull objects to see what will happen. Use trial and error to stack rings together.	CC. Experimenting, predicting, and drawing conclusions
Problem Solving and Use of Symbols: The infant/toddler finds solutions and represents thoughts and feelings in creative ways	
<b>Solve simple problems using logical reasoning.</b> Try to fit square into a round hole, big item into small box. Get a toy broom to clean up. Use a push or pull toy. Experiment with new uses for familiar objects (e.g. use a banana for a phone).	B. Problem solving with materials CC. Experimenting, predicting, and drawing conclusions
<b>Begin to express self creatively.</b> Move rhythmically to familiar songs. "Name" scribble drawings. Explore using different art materials. Use an object to represent something else during play. Try out new ways to get dressed.	X. Art Y. Music Z. Movement AA. Pretend play
Beginning to Build Concepts OLDER TODDLERS (24-36 MO.)	
Exploration and Discovery: The infant/toddler inquires about the world and experiences the properties of things	
Notice and describe how items are the same or different. Use size words; compare sizes. Group objects together that are the same in some way (matches, fills and dumps, sorts). Identify objects by touch in a feely bag. Identify objects when told their use.	U. Measurement BB. Observing and classifying
Begin to organize materials and information. Collect and organize materials for play. Comment on pattern or sequence. Arrange objects in a line. Ask "why?"	V. Patterns W. Data analysis
<b>Show beginning interest in time and location.</b> Ask when and where questions. Anticipate familiar routines. Arrange objects in simple patterns.	G. Community V. Patterns GG. Geography HH. History

Beginning to Build Concepts OLDER TODDLERS (24-36 MO.) CONT	
Concept Development and Memory: The infant/toddler understands cause and effect, the permanency of things and beginning numeracy concepts	
Demonstrate beginning number and measurement concepts. Begin to use 1-1 correspondence in play and routines. Explore measuring tools. Use some number words. "Count" objects, although not necessarily correctly.	S. Number and counting U. Measurement
<b>Experiment with effect of own actions on objects and people.</b> Watch for reaction when doing something that is not allowed. Observe blocks as a tower grow taller.	CC. Experimenting, predicting, and drawing conclusions
<b>Expresses understanding of cause and effect.</b> State, "Baby fall. She cry." Take tissue to sneezing mom.	CC. Experimenting, predicting, and drawing conclusions
Show increasing knowledge and memory for details and routine. Talk about past events; remember places. Imitate behavior seen in another place and time e.g. plays "birthday."	C. Reflection HH. History
Problem Solving and Use of Symbols: The infant/toddler finds solutions and represents thoughts and feelings in creative ways	
<b>Demonstrate increased problem solving ability.</b> Purposefully use trial and error to solve problems. Use tools to experiment: uses a toy hammer to "fix" a toy car. Find creative ways to solve a problem.	B. Problem solving with materials CC. Experimenting, predicting, and drawing conclusions
Represent thoughts and feelings in a variety of ways. Use words or actions to portray a real or imaginary role. Act out simple stories with adult support. Draw a picture and tell a story. Participate in music through movement, dancing and gestures. Experiment with art media.	X. Art Y. Music Z. Movement AA. Pretend play

Beginning to Move and Do* YOUNG INFANTS (BIRTH TO 8 MO.)		
Large motor: The infant/toddler moves her body to achieve a goal		
<b>Gain control of head and body.</b> Turn head from side to side. Hold head up when placed on stomach. Push chest and head off floor. Roll over to get closer to a toy. Sit with support, then without.	I.	Gross-motor skills
<b>Move body, arms and legs with increasing coordination.</b> Support self on hands. Use arms and legs to move forward and backward when on stomach or back. Rock forward and backward on hands and knees. Begin creeping and crawling. Crawl through and around objects.	I.	Gross-motor skills
Fine motor: The infant/toddler manipulates objects and uses simple tools		
Use hands or feet to make contact with objects or people. Reach for mother's face. Hit or kicks at mobile. Put fingers in mouth. Grasp dad's finger.	I. J.	Gross-motor skills Fine-motor skills
<b>Begin to coordinate hand and eyes.</b> Gaze at familiar face. Follow toys with eyes. Reach for or swipe at toy. Look at toy in hand while bringing it to mouth.	J.	Fine-motor skills
<b>Show growing control of hand and fingers.</b> Pick up and place objects. Drop items into container. Mimic hand clapping or waving.	J.	Fine-motor skills
Self help skills: The infant/toddler begins to care for self and practice personal safety.		
<b>Begin to regulate themselves.</b> Coordinate sucking, swallowing and breathing while feeding. Establish a sleeping and eating pattern. Suck fingers or pacifier for comfort.	K.	Personal care and healthy behavior
Begin to help with feeding, dressing and personal hygiene. Turn toward bottle or breast. Begin to feed simple finger foods. Hold own bottle. Pick up dry cereal with fingers. Lift arms when getting shirt put on or off.	K.	Personal care and healthy behavior

<sup>\*</sup>Accommodations or adaptations such as use of special equipment may be required for some children.

Beginning to Move and Do* YOUNG TODDLERS (16-24 MO.), Large Motor, CONT		
<b>Demonstrate increasing coordination and balance.</b> Try to move a riding toy using their feet. Squat to look at things down low. Push a toy cart or pull a wagon. Throw or kick a large ball.	I.	Gross-motor skills
Fine motor: The infant/toddler manipulates objects and uses simple tools		
Use hands and fingers in more complex and refined ways. Squeeze a sponge to watch the water drip. Roll, pound or squeeze dough. Turn pages of a book one by one.	J.	Fine-motor skills
Begin to use simple tools. Use spoon to feed self. Scribble or imitate marks with crayons.	J. EE.	Fine-motor skills Tools and technology
<b>Show increasing eye-hand coordination.</b> Pull apart pop beads. String large beads. Line up blocks. Imitate a vertical stroke.	J.	Fine-motor skills
Self help skills: The infant/toddler begins to care for self and practice personal safety.		
<b>Begin to attend to personal needs.</b> Ask for a snack. Tell a peer, "Move away." Point to crib or use words to signify being tired.	K.	Personal care and healthy behavior
Show increasing abilities in feeding, dressing and personal hygiene. Drink from sippy cup. Remove hat and mittens. Zip or unzip a large zipper. Wash hands with help.	K.	Personal care and healthy behavior
Participate in safety routines. Hold parent's hand outdoors or on stairs. Learn to stop when told "stop."	K.	Personal care and healthy behavior
Beginning to Move and Do* OLDER TODDLERS (24-36 MO.)		
Large motor: The infant/toddler moves her body to achieve a goal		
Demonstrate coordination, balance and control in a variety of ways Walk easily or run from place to place. Jump into puddles or piles of leaves. Climb on chair or stool to reach objects. Walk on tiptoes. Climb stairs alternating feet. Ride a trike with pedals. Participate in large motor games such as dance and Ring around the Rosey.	I. Z.	Gross-motor skills Movement
Fine motor: The infant/toddler manipulates objects and uses simple tools		
Coordinate several senses Do hand motions to finger plays. Tear paper to make a collage.	J.	Fine-motor skills
Use simple tools independently Draw with markers. Use tools with playdough. Snip paper.	J. EE.	Fine-motor skills Tools and technology

<sup>\*</sup>Accommodations or adaptations such as use of special equipment may be required for some children.

Beginning to Move and Do* OLDER TODDLERS (16-24 MO.), Fine Motor, CONT		
<b>Demonstrate eye-hand coordination.</b> Complete simple puzzles. Put together and take apart items such as Legos, links, etc. Wind toy with a pincer grasp.	J.	Fine-motor skills
Self help skills: The infant/toddler begins to care for self and practice personal safety.		
<b>Show increased attention to personal needs.</b> Pull at pants or give signs of needing toilet. Open door by turning handle. Assert independence: "Me do!"	K.	Personal care and healthy behavior
<b>Show increasing independence in personal care.</b> Feed self without help. Dress themselves with help for the hard things. Pour own milk from small pitcher. Drink from open cup.	K.	Personal care and healthy behavior
Participate in healthy care routines. Brush teeth with supervision. Wash hands independently. Get tissue when nose is running.	K.	Personal care and healthy behavior
Pay attention to safety instructions. Climb into car seat when asked. Pick up toys after playing.	K.	Personal care and healthy behavior

<sup>\*</sup>Accommodations or adaptations such as use of special equipment may be required for some children.

<sup>\*\*</sup> Toddlers should still be supervised in hand washing for health reasons.

Approaches Toward Learning YOUNG INFANTS (BIRTH TO 8 MO.)	
The infant/toddler demonstrates curiosity, initiative, persistence, imagination and problem solving in his or her everyday activities	
<b>Show curiosity and interest in people, objects and events.</b> React to new voices and sounds by turning, quieting or getting more active, or facial expression. Explore environment through mouthing, kicking, waving, watching.	A. Initiative and planning     M. Listening and comprehension     BB. Observing and classifying
Begin to demonstrate initiative. Engage adults in interactions. Repeat interesting actions.	<ul> <li>A. Initiative and planning</li> <li>E. Building relationships with adults</li> <li>BB. Observing and classifying</li> <li>CC. Experimenting, predicting, and drawing conclusions</li> </ul>
<b>Demonstrate creativity by exploring objects in multiple ways.</b> Observe hands and feet. Mouth, shake and bang objects.	EE. Tools and technology FF. Knowledge of self and others
<b>Begin to focus on interesting things: persistence.</b> Hold attention of caregiver through gaze or vocalization. Track movement of mobile.	A. Initiative and planning
<b>Begin to use senses to solve problems.</b> Look for a person who disappears from sight. Cry to get needs met.	B. Problem solving with materials
MOBILE INFANTS (6-18 MO.)	
<b>Demonstrate curiosity by using senses to explore the environment.</b> Manipulate objects that give responses. Venture out using motor skills to explore the environment. Play with a variety of sensory materials.	A. Initiative and planning BB. Observing and classifying
<b>Demonstrate initiative by showing likes and dislikes.</b> Select a toy or book from several choices. Express a desire to feed self.	A. Initiative and planning     D. Emotions     K. Personal care and healthy behavior
Use creative expression in beginning role play. Pretend to talk on the telephone. Give baby a bottle. Pretend to pat tortilla.	AA. Pretend play
Focus longer on interesting things; respond to order and routine and notice changes. Repeat filling and dumping activity over and over. Notice changes to words in favorite story.	A. Initiative and planning CC. Experimenting, predicting, and drawing conclusions
Responds to order and routine and notices changes.	G. Community
<b>Begin to find different ways to solve problems.</b> Imitate caregiver action such as pushing a button to make music. Gesture caregiver to pick him up to reach toy on a shelf.	B. Problem solving with materials
Begin to find different ways to solve problems. Imitate caregiver action such as pushing a	•

Approaches Toward Learning CONT YOUNG TODDLERS (16-24 MO.)	
The infant/toddler demonstrates curiosity, initiative, persistence, imagination and problem solving in his or her everyday activities	
Demonstrate curiosity by using all senses to explore new things in the environment. Listen carefully to sounds objects make. Engage with objects that light up or move. Move towards something new to observe and/or interact with it.	A. Initiative and planning     BB. Observing and classifying
<b>Demonstrate preferences and make independent choices.</b> Choose when offered two different snacks. Begin to show preferences, for example, sneakers over sandals, apple juice over grape juice.	A. Initiative and planning
Engage in more complex pretend play based on everyday events. Pretend to cook and bring you food. Use a dump truck to carry things.	AA. Pretend play
<b>Engage in activity towards a goal.</b> Retrieve toy that is out of sight. Pushes button to make a noise happen. Lift flaps on pop-up books.	A. Initiative and planning CC. Experimenting, predicting, and drawing conclusions
<b>Demonstrate more complex problem solving skills.</b> Attempt to stack or nest cups. Take objects apart and try to put them together.	B. Problem solving with materials
OLDER TODDLERS (24-36 MO.)	
Actively attempt to learn new things they are curious about. Ask "why?" to learn more about the world. Explore objects to find out how they work.	A. Initiative and planning     BB. Observing and classifying     CC. Experimenting, predicting, and drawing conclusions
Show initiative by making choices and taking risks. Initiate imaginative play with others. Choose one activity over another and pursue it for a short period.	A. Initiative and planning
Pretend and use creativity and imagination during play. Invent new uses for everyday objects. Try out a role that has not been observed.	AA. Pretend play
Persist toward a goal with an activity, object, or toy. Resist adults' attempts to help. Attempt task for several minutes before requesting help.	A. Initiative and planning     B. Problem solving with materials     CC. Experimenting, predicting, and drawing conclusions
<b>Begin to find novel solutions to problems.</b> Use trial and error to solve a problem, such as balancing blocks. Use objects as tools, for example, stands on a toy truck to reach an object on a counter.	B. Problem solving with materials

PRESCHOOL AND KINDERGARTEN EARLY LEARNING GUIDELINES		
Physical Development, Health and Well-Being		
#1 The child independently uses gross motor control including balance, spatial awareness and stability.	I.	Gross-motor skills
1.1 Exhibits body coordination and strength in activities such as climbing stairs with alternating feet, marching, running, jumping, hopping, dancing, riding tricycles, and scooters.	l.	Gross-motor skills
1.2 Exhibits balance and spatial awareness in many situations (running and stopping, climbing, ball-handling, and/or simple group games [i.e., "Duck, Duck, Goose"]).	l.	Gross-motor skills
#2 The child independently uses fine motor skills.	J.	Fine-motor skills
2.1 Is developing manual coordination to use cutting and writing tools and demonstrate self-help skills such as buttoning and zipping.	J. K. R. X.	Fine-motor skills Personal care and healthy behavior Writing Art
2.2 Coordinates eye-hand movements using beads, laces, pegs, puzzles, and other manipulatives and small objects, and when dressing and undressing.	J. K.	Fine-motor skills Personal care and healthy behavior
2.3 Holds writing tool in pincer grasp to draw, scribble write, and make letter-like shapes and/or letters.	J. R.	Fine-motor skills Writing
#3 The child's behavior demonstrates health and hygiene skills.	K.	Personal care and healthy behavior
3.1 Shows increasing awareness of hygiene in hand-washing, toileting, and/or dental hygiene.	K.	Personal care and healthy behavior
3.2 Shows increasing awareness of healthy lifestyle practices (that healthy bodies need nutritious foods, exercise and physical activity and rest).	K.	Personal care and healthy behavior
#4 The child demonstrates safe behaviors in increasing numbers of situations.	K.	Personal care and healthy behavior
4.1 Identifies potentially harmful objects, substances, and behaviors.	K.	Personal care and healthy behavior
4.2 Increasingly follows classroom, school, and safety rules most of the time.	K.	Personal care and healthy behavior
Literacy		
#5 The child demonstrates development and expansion of listening skills.	M.	Listening and comprehension
5.1 Listens with understanding to directions and conversations.	M.	Listening and comprehension
5.2 Follows increasingly complex directions.	M.	Listening and comprehension
5.3 Hears and discriminates the sounds of language in words to develop phonological awareness.	N.	Phonological awareness

iteracy #5, CONT	
5.4 Demonstrates understanding of new vocabulary introduced in conversations, activities, stories, or books.	M. Listening and comprehension     Q. Book enjoyment and knowledge
#6 The child communicates experiences, ideas and feelings through speaking.	L. Speaking
6.1 Converses effectively in his or her home language, English, or Sign language for a variety of purposes relating to real experiences and different audiences.	II. Listening to and understanding English JJ. Speaking English
6.2 Asks and answers relevant questions.	M. Listening and comprehension
6.3 Engages in conversations that develop a thought or idea.	<ul><li>L. Speaking</li><li>M. Listening and comprehension</li></ul>
#7 The child engages in activities that promote the acquisition of emergent reading skills.	P. Reading Q. Book enjoyment and knowledge
7.1 Demonstrates an interest and enjoyment in books, listening to stories read aloud, and/or looking at books using illustrations or familiar text.	Q. Book enjoyment and knowledge
7.2 Demonstrates comprehension of a story read aloud by asking relevant questions or making pertinent comments.	M. Listening and comprehension     Q. Book enjoyment and knowledge
7.3 Progresses in understanding and using conventions of reading (including holding book upright, identifying front and back, turning pages correctly, and recognizing that print proceeds from left to right).	Q. Book enjoyment and knowledge
7.4 Progresses in understanding and using concepts of print.	Q. Book enjoyment and knowledge
#8 The child engages in activities that promote the acquisition of emergent writing skills.	J. Fine-motor skills R. Writing X. Art
8.1 Experiments with a variety of writing tools, materials, and surfaces.	R. Writing X. Art
8.2 Demonstrates knowledge that writing and drawing are different and uses early stages of writing in the form of shapes and letter-like symbols to convey ideas.	R. Writing X. Art
8.3 Increasingly attempts to represent meaningful words and print in the environment using the early stages of writing.	R. Writing
