

Because all *Active*
children deserve a
high-quality *Learning* education

Step Up To Quality

Transform your early childhood program into an engaging, active learning environment where your children thrive. Research-based and child-focused, the HighScope Curriculum is carefully designed to achieve powerful, positive results. Our resources will support you as you scaffold children's learning and development and encourage young children's interests and explorations.

All children deserve a high-quality education. HighScope is your curriculum and assessment partner — approved by the Ohio Department of Job and Family Services.

Child Assessment

COR Advantage is built on 36 items that prepare children for school success. With the fewest items of any early childhood assessment, COR saves teachers time and keeps you focused on what matters most. Teachers capture and record child development in the COR Advantage online tool and then use the valuable insights they gain to create individualized lesson plans and detailed reports on child and classroom progress.

Criterion-referenced, research-based, and proven valid and reliable through rigorous validation studies, COR Advantage can be used with children birth to age six — including English Language Learners and children with special needs.

Curriculum

We focus on children's strengths. Play-based, child-centered, and grounded in research, the HighScope Curriculum provides a rich academic foundation while promoting independence, decision-making, creativity, and problem-solving in young children. Our curriculum resources help you guide children through purposeful play. Uniquely designed, our curriculum prepares you to support and extend children's learning based on their developmental levels, ensuring that each child enters school ready and eager to learn.

Professional Learning

We believe that you deserve the same inspiration and individualization that you provide children every day. That's why our professional learning program features the best of adult learning through active participation, collaboration, and reflection. Teachers gain proficiency in active learning and the inclusive approach to early education that supports every child's needs and interests. We create strong instructional leaders, helping programs across the country and around the world build capacity for sustained positive outcomes.

ELIGIBILITY REQUIREMENTS

- Ohio Department of Job and Family Services (ODJFS) or Ohio Department of Education (ODE) provider with an active publicly funded child care provider agreement; and
- Have provided publicly funded child care services to at least one child within 90 days prior to the request date; and
- Currently not using a curriculum or not using either of the curricula purchased by the state; and
- Currently SUTQ rated or pursuing SUTQ as evidenced by a submitted registration for any star rating.

REQUEST YOUR FREE RESOURCES

Dependent upon approval by ODJFS, you will receive a curriculum book and professional learning DVDs at the address you provide. Our COR Advantage team will contact you to set up your online subscription to our child assessment tool. Look for an email from HighScope with instructions on how to register for your online curriculum and assessment courses.
